PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience in outcome-based full stack development at Masai School. Holds a Bachelor's degree in Computer Applications (BCA), providing a solid foundation in software development principles. Passionate about building dynamic, responsive web applications using modern frontend and backend technologies. Continuously learning and improving through real-world projects and collaborative development.

EDUCATION

Masai School

Full stack development

Rai University

BCA

August 2024

SKILLS

Technical Skills: Responsive Web Design, CSS3, HTML5, Redux, Git, React, JavaScript, Firebase, GitHub

Soft Skills: Teamwork, Adaptability, Problem Solving, Creativity

PROJECTS

Flipkart Clone | *HTML, CSS, JavaScript, GitHub*

- Developed a responsive Flipkart Clone with core features such as product listing and user authentication using HTML, CSS, and JavaScript.
- Utilized Firebase Realtime Database to fetch and display product data on the platform.
- Contributed to the project's version control using GitHub and deployment on Netlify for live viewing.
- Implemented search and sort functionalities for products on the landing and product pages to enhance user experience.

CivicRoute - Web App for Civic Issues | *React.js, Firebase, GitHub*

- Collaborated in developing CivicRoutes, a civic issue reporting platform using ReactJS for enhanced user experience.
- Contributed to enabling users to upload issues with multimedia content and locations, fostering community engagement and problem-solving.
- Participated in implementing a dashboard feature for both citizens and authorities, streamlining issue management and resolution processes.
- Utilized React.js, Firebase, and GitHub technologies to build a dynamic and responsive platform for efficient issue reporting and tracking.
